HERE'S WHY THOUSANDS OF CORPORATIONS HAVE IMPLEMENTED MIMEO:

Reduce Transactional & Supply Costs

With quick turn printing capabilities and no order minimums, creating a Mimeo virtual library eliminates the need to warehouse. As a result, our customers who have warehoused documents in their previous solutions experience substantial cost savings by eliminating document waste and other associated soft costs.

Increase Operational Reliability

Mimeo runs at an industry leading **99.7% error free production rate**

Production employs **continuous process improvement methods** and the Toyota Production System

All facilities utilize an **uninterruptable power supply (UPS)**, ensuring continuous operation

MIMEO'S LEAN PRINT PRODUCTION FACILITY, NEWARK NJ

MANUFACTURERS INCREASINGLY RELY ON DOCUMENTS PRODUCED AT CUTTING EDGE PRODUCTION FACILITIES ON DEMAND BY PRINT PROFESSIONALS.

Eliminate Manual Processes

Mimeo is easy to use, making onboarding intuitive and fast. Minimal effort is required for organization-wide implementation - **create an account, build a document, and order in minutes.**

A Fortune 100 Industrial Company conducted an internal study of its workforce's adoption of Mimeo. They concluded that by streamlining the production and distribution of their printed products, **they got back 7 years in man hours, equating to \$875,000 in soft costs alone.**

Improve Dealer & Customer Experience

Our customer care is an extension of your team. Manufacturers utilize it to improve their customer satisfaction. Our dedicated Sales and Account Services teams manage relationships with administrators and end users while being closely supported by a 24/7 Customer Care team.

Mimeo.com is available at all times to receive orders.

MOTOROLA
SOLUTIONS

“BEFORE MIMEO, OUR TEAM STOOD IN FRONT OF THE PRINTERS UP TO 30% OF THE TIME. JUST BECAUSE YOU CAN, DOESN'T NECESSARILY MEAN YOU SHOULD. MIMEO GAVE THEM BACK TIME IN THEIR LIVES.”

- DAWN APPLE SENIOR MANAGER, NORTH AMERICA PROPOSAL CENTER, MOTOROLA SOLUTIONS

Shorten Publication Cycles: Accelerate Time to Market

- Define quantities and cycle times based on end user demand
- Ship product directly to end user or factory-line
- Ensure both the precise turnaround and delivery of each shipment

This means that in addition to ensuring the specified production turn time, packages arrive on time at their destinations. For the majority of orders, **submit by 10PM EST and have it arrive as early as the next business day anywhere in the U.S.**

24/7 CUSTOMER CARE

Reduce Inventory Liabilities, Exposure & Volatile Demand

Automation and spend management should go hand in hand. With Mimeo, they do. Specify ordering limits, budgets, shipping methods, account credit and more. Rather than having a separate, standalone system, Mimeo has also fully integrated reporting within our applications to make customer experience seamless.

With Mimeo, manufacturers have complete control over every order, from manuals to sales literature to master documents to catalogs.

Manage Product Changes Efficiently

Meeting regulatory and engineering standards became a lot simpler. Through different administrator roles, set permissions for those accessing your content. Specify who can share what and limit who cannot.

Unlimited number of users with individual robust content libraries. Each library has unlimited free storage. Reach office workers to field workers with the ability to:

- Securely store, save, and share documents through individual user content libraries
- Set sharing permissions--read-only, customize or full control--for specified documents
- Update, remove or archive outdated content organization-wide, from a single user account in real time

“BAR NONE, THE MIMEO QUALITY IS FAR SUPERIOR TO OUR PREVIOUS PRINTING PROCESS... AND FAR CHEAPER THAN WE COULD EVER DO IT OURSELVES.”

- DEBBIE Q., SENIOR ASSOCIATE OF CORPORATE DEVELOPMENT NABORS INDUSTRIES

NABORS
INDUSTRIES LTD.

Eliminate Pricing Surprises

Mimeo has integrated real time pricing to eliminate wasted time gathering quotes. Our pricing engine calculates a real time in-country price based on the service level, country delivery address, and print job specs. Pricing includes an “all in” price of any taxes/tariffs, global shipping costs and print costs. Corporate pricing can be applied to each user account. More than 50,000 organizations in over 140 countries have corporate pricing in place.
